SKILLS

Java

Python

C

HTML, Database Management (MySQL)

JavaScript(Learning)

OOPs, Array, String, Sorting, Searching, Recursion

Git & Github, VS Code, Webstorm

LANGUAGES

English

Full Professional Proficiency

Hindi

Full Professional Proficiency

INTERESTS

Programming

Cricket

Music

EDUCATION

Matriculation

M. C. Kejriwal Vidyapeeth

04/2009 - 07/2022

73.5%

Courses

▫ Scouting

▫ Java

Intermediate

Sudhir Memorial Institute

07/2022 - 08/2024

Courses

▫ Python(Programming Language)

Bachelor of Technology in Computer Science & Engineering NIST University, Ganjam

08/2024 - Present

Courses

▫ Python, C, Java

▫ Database and Management System

▫ Data Structure & Algorithm

WORK EXPERIENCE

Student Developer

Self-Learning/ Academic Projects

08/2024 - Present

Solved 70+ questions regarding java, python and problem solving.

PERSONAL PROJECTS

Login App (10/2025 - 10/2025)

- Built a full-stack authentication application using the MERN stack.
- Implemented user signup and login using MongoDB for data storage, Express and Node.js for backend APIs and React for frontend.
- Focused on secure authentication and clean component-based UI design.
- Tech Stack: MongoDB, Express.js, React, Node.js, JavaScript.

Task Management App (12/2025 - 12/2025)

- Built a full-stack Task Management application using MERN stack.
- Implemented CRUD functionality for managing tasks.
- Created REST APIs and connected them with a React frontend and used MongoDB for database management.
- Tech Stack: MongoDB, Express.js, React, Node.js, JavaScript.
